Experience

Front-End Developer (React.js)   Jul 2024 – Sep 2024
UN Women – Egyptian Council / Frontend Advanced Level

- Built a full e-commerce web application using React.js, Zustand, and React Router.
- Implemented responsive layouts across desktop and mobile using modern UI practices.
- Optimized global state management and reusable component structure.
- Used GitHub for version control and deployed all projects using Vercel.

Projects

- **E-Commerce Website:** Live Demo | GitHub Repo
  A modern React e-commerce app using React Router v6, offering a smooth shopping experience with product browsing and detailed views. Features include cart management and category filtering across Jewellery, Electronics, Men's Clothing, and Women's Clothing.

- **GitHub Search App:** Live Demo
  A simple React application that allows users to search for GitHub profiles and view profile details. The app supports Dark Mode using a toggle switch and dynamically updates UI styling.

- **Galleria Slideshow:** Live Demo
  A modern React application that displays an interactive gallery of paintings. Users can browse artworks, open paintings in fullscreen, and view a responsive slideshow. Routing is powered by React Router v6, and carousel animations are built using react-slick.
